

EVERYTHING YOU NEED IS HERE...

In August 2019 after 23 successful years on Oxted High Street I moved my business SMS Creative Photography to operate remotely and to offer a more individual and personal service and to explore other exciting photographic opportunities. I am available for a variety of photo-shoots that I know many of you have grown to love, or for any other creative projects you may have in mind.

HEADSHOTS

For business profiles, websites, social media, boardrooms, at your place of work or our studio, individually or groups.

FAMILY PHOTO-SHOOTS

For an experience to remember, with your beloved pets - in our studio, the local woodlands, meadows and vineyards.

MASTERCLASSES

One-to-One Photography Masterclasses designed to suit your needs to help you understand your camera.

INTERIOR & EXTERIOR

Creative imagery of your business premises for websites and brochures and your home and garden too.

PICTURE FRAMING

We offer a comprehensive and bespoke picture framing service by master craftsmen for your artworks and photographs.

Stella

MORE ABOUT ME...

Did you know as well as SMS Creative Photography I also have another brand called 'Stella' Lifestyle Photography?

This is where I'm commissioned to photograph during automotive events such as the British Grand Prix and other high profile events and occasions.

As well as photographing people, my curiosity and creativity has led me to photographing personal collections, including classic and supercars, antiques, artworks and so much more, creating provenance within bespoke books and photographs to adorn your walls and websites.

To learn more about 'Stella' Lifestyle Photography please get in touch.

You might just find that something extra special for your loved ones, your customers, or yourself...
